

COLORADO HUMAN TRAFFICKING COUNCIL

- Colorado: Colorado has a Human Trafficking Council that was established through
- legislation in 2014. They are also an Improving Outcomes Grantee through the US
- Dept. of Justice Office for Victims of Crime where they use an interdisciplinary,
- comprehensive joint response between their law enforcement and child welfare
- departments to prevent and reduce the impact of child/youth human trafficking. This
- collaborative joint effort is through their Colorado Dept. of Human Services, Dept. of
- Child Welfare, and Dept. of Public Safety, Division of Criminal Justice. As part of this
- effort, they use a three-prong training approach including the use of a
- train-the-trainer model and the creation of online self-paced training modules. In
- addition, they are launching in November a survivor-informed statewide public aware-
- ness campaign. Maria Trujillo is the Human Trafficking Program Manager who
- oversees and coordinates the work of the Colorado Human Trafficking Council and
- also established the National Compendium for Statewide Anti-Trafficking Initiatives.

Thank you, Maria and others who assist in, leading this effort.
